Structures & Mechanisms
Grade 8 – Structures & Mechanisms
- Health & Physical Education: Grade 5 – Active Participation
Grade 6 – Active Participation
Grade 7 – Active Participation
Grade 8 – Active Participation

Program Description:

Would you know what to do if you became lost or disoriented in the woods? In this program, students will learn basic wilderness survival techniques. There are 3 activity options for this program: Shelter Building, Fire Building and Orienteering. Half day groups select one option; Full day groups select two options. All groups will also participate in a discussion of survival techniques, survival kits and strategies to ensure survival in the event of becoming lost in the wilderness.
